SITUATION SUMMARY

Significant Events – National

7 Shot During Spring Break at Florida Panhandle Beach Town

(CNN) Seven college-age people, some who came to Panama City Beach, Florida, for spring break, were wounded in a late-night shooting, the Bay County Sheriff's Office said in a press release. Officers met "complete chaos" when they tried to find out what happened not long after midnight Friday, Sheriff Frank McKeithen told CNN affiliate WMBB when interviewed on the scene. Three people with gunshot wounds were found inside a house, one outside the house, one in the median of the road and two on the other side of the road, the sheriff's office said in a press release. Several of the victims were students from Alabama A&M University who were visiting town for spring break, the sheriff's office said. Authorities arrested David Jarmichael Daniels, 22, of Mobile, Alabama, on seven counts of attempted murder. A .40-caliber pistol was found in the backyard of a residence. Officials did not mention a possible motive. The shooting was one of six firearms-related incidents of the night, with four guns seized in drug cases, the sheriff's office said in a press release. Other details were not provided.

Significant Events – International

Air Canada Plane 'Exits' Runway While Landing at Halifax

(BBC News) An Air Canada airplane has "exited" the runway while landing at Halifax airport, the airline says. All 132 passengers on board the A320 Airbus have left the plane, with 25 taken to hospital for observation and treatment of minor injuries. Flight AC624 from Toronto arrived shortly after midnight (04:00 GMT) and reportedly hit a power pylon after landing. The airport is shut with no inbound or outbound flights. Power at Halifax Stanfield Airport was knocked out but Nova Scotia Power say that it has been restored. There was heavy snow in the area at the time and visibility was poor. "An aircraft made a poor landing," confirmed airport spokesman Peter Spurway.

Singaporeans Bid Final Farewell to Founding Father Lee

(Reuters) Tens of thousands of people braved heavy rain and lined the streets of Singapore on Sunday to catch a last glimpse of founding prime minister Lee Kuan Yew as his funeral procession wound through the country he helped build. Booms from a 21-gun salute reverberated around the country's business district, fighter jets flew overhead in a "missing man" formation and two navy ships near the marina made an 'L' 'K' 'Y' signal with their flags as Lee's coffin was taken by gun carriage from the country's parliament to his state funeral. The procession carrying Lee, who died last Monday aged 91, will pass through Tanjong Pagar, the constituency he represented for 60 years, before continuing the 15.4 km trip to the ceremony at the National University of Singapore. His death, less than five months before the city-state's 50th anniversary of independence, has prompted an unprecedented show of grief among its population of 5.4 million people. Lee will be cremated in a private ceremony after the funeral on Sunday.

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Mostly clear skies and dry weather are expected today. A weak front will bring a chance of rain to areas north of Cape Mendocino Monday night into Tuesday followed by cooler temperatures.

Medford Weather:

High pressure in the form of a flat ridge will continue to dominate the weather through Monday. Highs will be 15 to 25 degrees cooler on Tuesday as compared to Monday. In addition to the temperature drop, from Monday night through Tuesday evening the cold front moving through the area will bring precipitation and wind. It will remain breezy to windy and cool on Wednesday as a cold pool moves from through from the northwest. A break in the precipitation is forecast Thursday through Friday.

Reno Weather:

A weak disturbance approaching the southern Sierra may produce a few late day showers or thunderstorms near the Sierra crest today and Monday. Otherwise, dry conditions with much above normal temperatures are expected. A stronger low pressure system moving across the Pacific Northwest will bring gusty winds and cooler temperatures to the region Tuesday and Wednesday.

San Francisco Weather:

Much above normal temperatures will continue today with record high temperatures possible. A cooling trend is then forecast from Monday through Wednesday. Dry weather is expected to persist through Saturday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Warm and fairly dry weather will continue early this week. Weak systems may bring a few intermittent showers to the mountains today into Wednesday. Another chance for precipitation is possible next weekend.

Hanford Weather:

A weak Pacific disturbance will bring a small threat of thunderstorms to the Sierra this afternoon and evening. Temperatures will remain several degrees above normal into next week.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A cooling trend will continue into early next week as onshore flow continues. Night through morning low clouds and fog will occur along parts of the coastal plain. Gusty northwest to north winds will affect parts of the area around midweek. Well above normal temperatures are possible late next week as Santa Ana winds may develop.

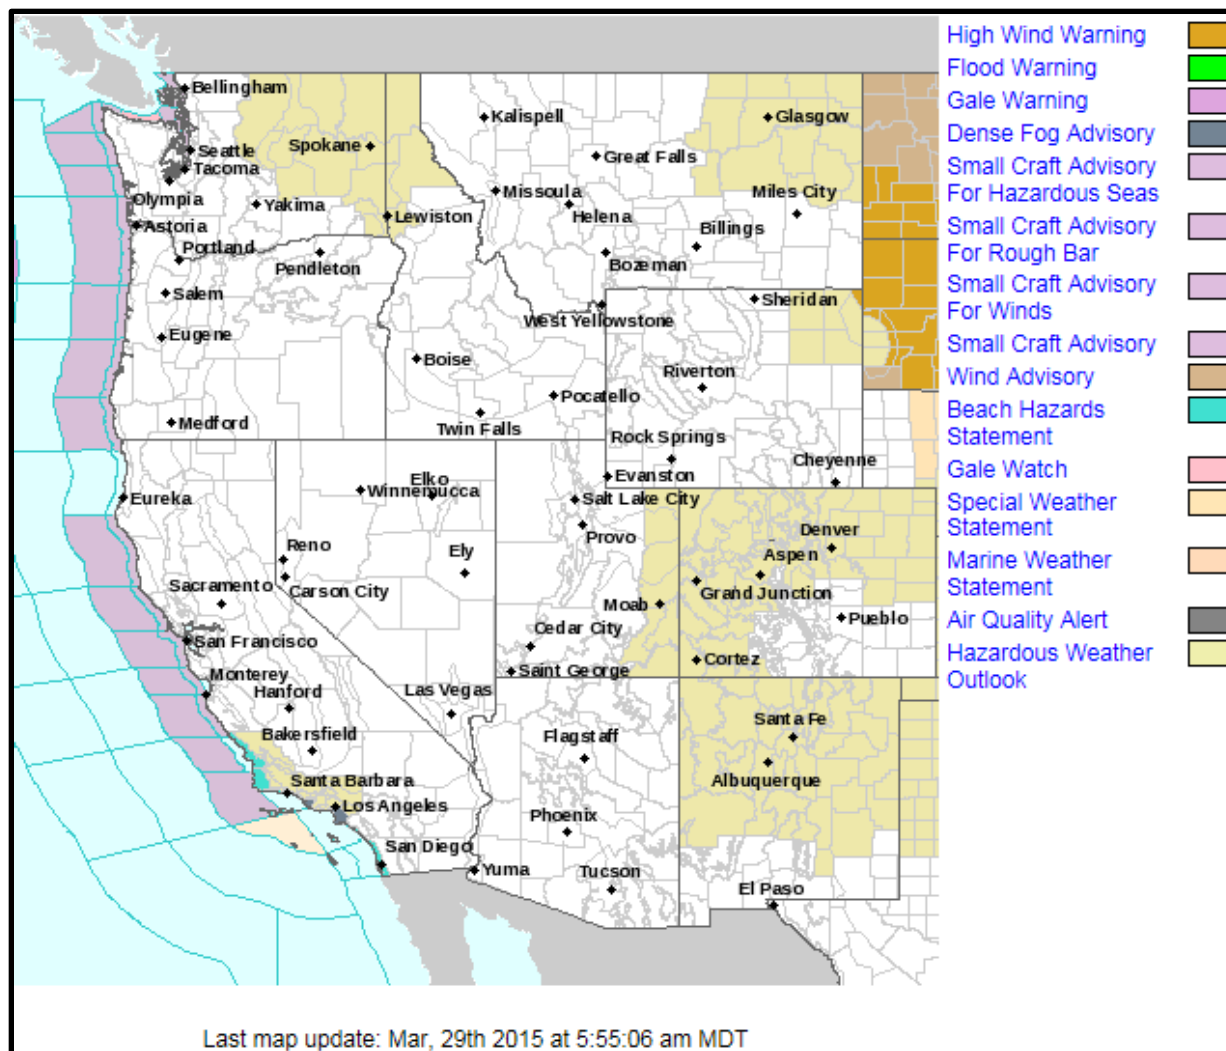

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A weak trough of low pressure will bring a few degrees of cooling today as it drifts across Baja Mexico, but it will still be quite warm inland. A shallow marine layer will bring low clouds and areas of fog back to the coast this morning and again Monday morning. Mild and dry weather next week with gusty westerly winds in the mountains and deserts at times each day as storms pass by to the north.

Southeast California Weather:

High pressure over the region will lead to afternoon temperatures reaching the lower and middle 90s through Tuesday. An area of weak low pressure will pass south of the area early this week bringing increased cloudiness, but little effect on temperatures.

RECOVERY ACTIVITIES

Round Fire, Mono County

- Site sampling and hazardous materials recovery of the affected properties began 03/14/15. Cal Recycle began debris removal operations 03/23/15.
- Two Recovery personnel have deployed to Mono County to assist with debris removal operations.
- An Applicant's Briefing will be held on 04/03/15 at 1300 hours, at the Lee Vining Community Center, to discuss the eligibility and guidelines of the CDAA program.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued an Executive Order on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought. Specifically, through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate a monthly state interagency conference call regarding drought community impacts.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a bi-weekly basis.

CAL OES MISSIONS

New Cal OES Missions

- **2015-LAW-9310, 3/28/15 1939 hours**, Air Force Rescue Coordination Center (AFRCC) advised of a PLB sounding at a shopping center in San Carlos, San Mateo County. Cal OES LDO coordinating resources to locate and silence device. **2009 hours**, Cal OES LDO contacted registered owner who advised activation was a false alarm. Device was activated while registering and making sure the device worked. **Mission Closed.**

Ongoing Cal OES Missions

- **2015-LAW-9096, 3/23/15 1030 hours**, Trinity County Sheriff's Department (TCSD) is requesting resources for a cold case homicide. Their investigation revealed that the victim's remains maybe in a 80 acre parcel in Shasta County. TCSD is requesting two cadaver search dog teams to assist in searching the area. California Governor's Office of Emergency Services, Law Enforcement Branch is coordinating the search dog response. **Mission On-going.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
